to appropriate officer

I am writing with concern at the delay to approval of the Seawall in front of our property
There is no doubt we are under increasing risk from rising sea levels and greater devastating
storm surges

This will inevitably destroy our property that was approved as safe to build by council. It will
also lead to the destruction of Pittwater road and all the issues that that entails.

We respectfully seek your urgent attention to approving the Seawall to mitigate ours and
councils risk to person and property

Russell and Gail Jacka
