RE: DA2021/2173 - 394 Barrenjoey Road NEWPORT NSW 2106

As a Life Member of Newport Surf Life Saving Club, I strongly support the DA application for the proposed extensions.

Over the past few decades the club has expanded its membership numbers and is very proficient at patrolling the beach and is also in the top five competitive clubs in Australia. The need for increased storage room for our competition equipment has increased annually as well as storage for our patrolling gear.

With the increase in numbers we need more facilities for our members and guests [ie toilets and food preparation]. Hence the need for more space to provide for the general community, as well as members.

I, wholeheartedly, support this DA application.

regards

David
