Regarding the application DA2021/0669

Can you please let myself and many others know what is the story of The Boathouse application, it's part and parcel of the charm of our area...

It would be sacrilege to destroy it and make it like other modern out of character places .I've been asked as someone who has been going there since Carmel Walton had the lease....enjoyed the other leaseholders where there was no pretension.

Hope you can explain
Suzanne Richards.
