RE: DA2021/1841 - 8 Coronation Street MONA VALE NSW 2103

This application is not in keeping with the current residential nature of the Street and I have not spoken to one person in the Street who seems happy with it. To allow a development of this type would open the flood gates to the other developers buying up properties and I am sure this would be the end of Coronation Street as we know it . I am sure Delemege have done their homework and it maybe compliant however I urge you to stop developments of this type this is not what the house owners want for this area and would be extremely disappointing.
