RE: DA2020/1235 - 888 Pittwater Road DEE WHY NSW 2099

As an owner of an apartment in this building, Meriton have again failed to notify us of this (already failed) application and ask whether we support this change to our car park. There is no significant difference between this application and the last one.

There is a concern with vibration in the building which will impact residents (plus my small children), congestion of traffic and a real risk to mould given there is no fresh air going into the car park. The residents have belongings in storage cages in the car park and we do not wish for it to be impacted by mould. It would render these storage cages useless which is unfair to residents.

In addition, we do not need a car wash in the car park, It is simply a way to revenue raise for Meriton despite the ongoing objection from residents, who should be the first consideration. There are several car washes within a 5km radius (Pittwater road, Warringah Mall and Dee Why RSL) so another car wash will provide no benefit to residents or locals.

Thank you for your consideration.
