**Subject:** Submission for proposed development proposal Mod2021/0047 - DA2019/0123

Hi,

I tried to submit this proposal online but your site said-

**This application is not currently within the official exhibition period, or does not require public exhibition. Please see Council's [Community Participation Plan](#).**

If this is wrong, please review your website to allow others to submit.

My submission is that I am in support of this proposal. I have been a stall holder, although am not currently, and thought it was a very good market. I am, generally speaking, a big fan of community markets and this one seemed to have support from the local community.

I submit that it should be given continued approval from council and five years seems like a good timeframe as it will give them surety of lease so that they can realise any benefit from investing in the market and will give stall holders surety that attending will allow for increased loyalty from the community as they can operate for the years required for the extended community to make it a habit to attend.

Thank you for asking for community feedback and I hope this submission is of some benefit to you.

Regards

Martin Vella
