NOTICE OF ORDERS MADE

Case number

2021/00328295

Case title

Leigh Thatcher v Northern Beaches Council

On 14 April 2022 the following orders (and/or directions) were made:

The Court orders that:

(1) The Appeal is upheld.

(2) Development Application No. DA2021/0953 for subdivision of Lot 2 DP18022 at 52 Abbott Road, North Curl Curl into two (2) lots is determined by the grant of consent subject to the conditions of consent in Annexure A.

For the Registrar

LEC No: 2021/328295

Annexure A

DETERMINATION OF DEVELOPMENT APPLICATION BY GRANT OF CONSENT

Development Application No: DA2021/0953

Development: Demolition, works and subdivision of one lot into two lots.

Site: 52 Abbott Road, North Curl Curl

The above development application has been determined by the granting of consent subject to the conditions specified in this consent.

Date of determination: 14 April 2022.

Date from which consent takes effect: 14 April 2022.

TERMINOLOGY

In this consent:

- (a) Any reference to a Construction, Compliance, Occupation or Subdivision Certificate is a reference to such a certificate as defined in the *Environmental Planning and Assessment Act 1979*.
- (b) Any reference to the "applicant" means a reference to the applicant for development consent or any person who may be carrying out development from time to time pursuant to this consent.
- (c) Any reference to the "site", means the land known as [insert details].

The conditions of consent are as follows:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other conditionof consent) with the following:

a) Approved Plans

Architectural Plans - Endorsed with Council's stamp			
Drawing No.	Dated	Prepared By	
Plan of Subdivision No.19682 subdivision Issue 4	28 March 2022	CMS surveyors	
Sheet – 1/A	25 March 2022	Taylor Consulting	
Sheet – 2/A	25 March 2022	Taylor Consulting	
Sheet – 3/A	25 March 2022	Taylor Consulting	

LEC No: 2021/328295

Reports / Documentation – All recommendations and requirements contained within:			
Report No. / Page No. / Section No.	Dated	Prepared By	
Demolition, Waste and Sedimentation Plan	June 2021	N/A	

- b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.
- c) The development is to be undertaken generally in accordance with the following:

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. Approved Land Use

Nothing in this consent shall authorise the use of site/onsite structures/units/tenancies as detailed on the approved plans for any land use of the site beyond the definition of a dwellinghouse.

A **dwelling house** is defined as:

"dwelling house means a building containing only one dwelling."

(development is defined by the Warringah Local Environment Plan 2011 (as amended)Dictionary)

Any variation to the approved land beyond the scope of the above definition will require the submission to Council of a new development application.

Reason: To ensure compliance with the terms of this consent.

3. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of theBuilding Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitmentsspecified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried

out:

- (i) showing the name, address and telephone number of the Principal CertifyingAuthority for the work, and
- (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and

LEC No: 2021/328295

- (iii) stating that unauthorised entry to the work site is prohibited. Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which thework relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 ofthat Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit underthat Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is inprogress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to whichthe work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base ofthe footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the
 - excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any suchdamage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intentionto do so to the owner of the adjoining allotment of land and furnish particularsof the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this

clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

LEC No.: 2021/328295

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

4. General Requirements

(a) Unless authorised by Council:
Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whetherthe activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of theDevelopment Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have notcommenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development thatoccurs on Council's property.

(h) No skip bins, building materials, demolition or excavation waste of any nature, and nohoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.

LEC No: 2021/328295

- (i) Demolition materials and builders' wastes are to be removed to approvedwaste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damagedduring construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and isdangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (I) A "Road Opening Permit" must be obtained from Council, and all appropriate chargespaid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWorkNSW Codes of Practice.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

5. Security Bond

A bond (determined from cost of works) of \$1,500 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoiningthe site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

LEC No: 2021/328295

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolitionwork commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completedwith the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTIONCERTIFICATE

6. Stormwater Disposal

The applicant is to submit Stormwater Engineering Plans for the new development within this development consent, prepared by an appropriately qualified and practicing Civil Engineer, indicating all details relevant to the collection and disposal of stormwater from the site, buildings, paved areas and where appropriate adjacent catchments. Stormwater shall be conveyed from the site to Abbott Road.

Details demonstrating compliance are to be submitted to the Certifying Authority for approvalprior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from the development.

7. Passing bay and Access way

The applicant must provide a design plan of the access way within Lot 2 in DP 18022 and Lot 3 in DP 18022 in generally accordance to the approved drafted subdivision plan in condition 1. The applicant shall provide the evidence of the created right of carriageway on title within Lot 3 in DP18022 to the Certifying Authority.

The access way must be reconstructed and the structural details of the access way are to be prepared by a qualified Civil Engineer. The design must be included the following information:

- 1) The access way must be at least 3.1 m wide for the first 28 m from the front boundary.
- 2) The access way must be at least 3.5 m wide beyond the first 28 m from the front boundary to the parking bay on proposed Lot 2 as shown on the Driveway Plan by Taylor Consulting Sheet 1/A dated 25 March 2022.
- 3) A 5 metres wide and 10 metres long passing bay must be designed in proposed Lot 1.

4) The structural details of the proposed hardstand parking areas in both proposed lots

LEC No: 2021/328295

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

8. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

9. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/oreasements. The appropriately stamped plans must then be submitted to the Certifying Authoritydemonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- "Tap in" details see http://www.sydneywater.com.au/tapin
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

10. Installation and Maintenance of Sediment and Erosion Control

Sediment and erosion controls must be installed in accordance with Landcom's 'Managing

Urban Stormwater: Soils and Construction' (2004). Techniques used for erosion and sedimentcontrol on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To protect the surrounding environment from the effects of sedimentation and erosion from the site

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING

11. Tree and Vegetation Protection

a) Existing trees and vegetation shall be retained and protected, including:

LEC No: 2021/328295

- i) all trees and vegetation within the site, excluding exempt trees and vegetation under therelevant planning instruments of legislation,
- ii) all trees and vegetation located on adjoining properties,
- iii) all road reserve trees and vegetation.
- b) Tree protection shall be undertaken as follows:
- i) tree protection shall be in accordance with Australian Standard 4970-2009 Protection of Treeson Development Sites, including the provision of temporary fencing to protect existing trees within 5 metres of development,
- ii) existing ground levels shall be maintained within the tree protection zone of trees to beretained, unless authorised by an Arborist with minimum AQF Level 5 in arboriculture.
- iii) removal of existing tree roots at or >25mm (Ø) diameter is not permitted without consultationwith an Arborist with minimum AQF Level 5 in arboriculture,
- iv) no excavated material, building material storage, site facilities, nor landscape materials are tobe placed within the canopy dripline of trees and other vegetation required to be retained,
- v) structures are to bridge tree roots at or >25mm (Ø) diameter unless directed by an Arboristwith minimum AQF Level 5 in arboriculture on site,
- vi) excavation for stormwater lines and all other utility services is not permitted within the tree protection zone, without consultation with an Arborist with minimum AQF Level 5 in arboricultureincluding advice on root protection measures,
- vii) should either or all of v) or vi) occur during site establishment and construction works, anArborist with minimum AQF Level 5 in arboriculture shall provide recommendations for tree protection measures. Details including photographic evidence of works undertaken shall be submitted by the Arborist to the Certifying Authority,
- viii) any temporary access to, or location of scaffolding within the tree protection zone of a protected tree or any other tree to be retained during the construction works is to be undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of Australian Standard 4970-2009 Protection of Trees on Development Sites,
- ix) the activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees onDevelopment Sites shall not occur within the tree protection zone of any tree on the lot or anytree on an adjoining site,
- x) tree pruning from within the site to enable approved works shall not exceed 10% of any treecanopy, and shall be in accordance with Australian Standard 4373-2007 Pruning of Amenity Trees.

The Certifying Authority must ensure that:

c) The activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites, do not occur within the tree protection zone of any tree, and any temporaryaccess to, or location of scaffolding within the tree protection zone of a protected tree, or any other tree to be retained on the site during the construction, is undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of that standard.

Note: All street trees within the road verge and trees within private property are protected underNorthern Beaches Council development control plans, except where Council's written consent for removal has been obtained. The felling,

lopping, topping, ringbarking, or removal of any tree (s) is prohibited.

Reason: Tree and vegetation protection.

12. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained a safe condition at all times during the course of the work.

LEC No: 2021/328295

Reason: Public safety.

13. Installation and Maintenance of Sediment and Erosion Controls

Council proactively regulates construction sites for sediment management.

Sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004) prior to commencement of any other workson site.

Erosion and sediment controls are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and vegetation cover has been re-established across 70 percentof the site, and the remaining areas have been stabilised with ongoing measures such as jute mesh or matting.

Reason: Protection of the receiving environment.

14. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridgeheight are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal

Certifying Authority.Reason: To demonstrate the proposal complies with the approved plans.

15. **Property Boundary Levels**

The Applicant is to maintain the property boundary levels. No approval is granted for anychange to existing property alignment levels to accommodate the development.

Details demonstrating compliance are to be submitted to the Principal

Certifying Authority.Reason: To maintain the existing profile of the nature strip/road reserve.

16. Traffic Control During Road Works

Lighting, fencing, traffic control and advanced warning signs shall be provided for the protection of the works and for the safety and convenience of the public and others in accordance with RMS Traffic Control At Work Sites Manual (http://www.rms.nsw.gov.au/business- industry/partners-

suppliers/documents/technical-manuals/tcws-version-4/tcwsv4i2.pdf) and to the satisfaction of the Roads Authority. Traffic movement in both directions on public roads, andvehicular access to private properties is to be maintained at all times during the works

LEC No: 2021/328295

Reason: Public Safety.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THEOCCUPATION CERTIFICATE

17. Certification of Civil Work

The Applicant shall submit a certificate from a suitably qualified engineer that the civil works have been constructed/installed in accordance with all relevant Australian Standards and Codes and the conditions of this consent.

Details demonstrating compliance are to be submitted to the PrincipalCertifying Authority prior to the issue of the final Occupation Certificate.

Reason: To ensure appropriate provision for the civil work in the development.

CONDITIONS THAT MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF ANY STRATA SUBDIVISION OR SUBDIVISION CERTIFICATE

18. Provision of Services for Subdivision

The applicant is to ensure all services including water, electricity, telephone and gas are provided, located and certified by a registered surveyor on a copy of the final plan of subdivision. Details demonstrating compliance are to be submitted to the Principal CertifyingAuthority prior to the issue of the Subdivision Certificate.

Reason: To ensure that utility services have been provided to the newly created lots.

19. Right of Carriageway

The Applicant shall create a right of carriageway (under the provisions of Section 88B of the Conveyancing Act) on the final plan of subdivision and accompanying 88B instrument, to include all vehicular access and manoeuvring areas. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Subdivision Certificate.

Reason: Council's subdivision standards and the statutory requirements of the ConveyancingAct 1919.

19A - Positive Covenant of the future Access Way

The Applicant shall create a positive covenant (under the provisions of section 88B of the Conveyancing Act) on the plan of subdivision and accompanying 88B instrument, requiring the proprietor/s of proposed lot 1 to widen the 3.1m wide accessway by 400mm to be 3.5 metres wide as measured from the eastern boundary of the right of carriageway within Lot 3 in DP18022 (and widen the right of carriageway in favour of

lot 2 accordingly) as part of any development consent (under Environmental Planning and Assessment Act 1979) for demolition and/or re-construction of the existing dwelling in proposed Lot 1.

LEC No: 2021/328295

The details of the proposed access way widening required by the covenant is as shown on approved plan of subdivision No. '19682subdivision' version 4 by CMS surveyors dated 28 March 2022.

The terms of the 88B instrument must be prepared by the applicant. Northern Beaches Council shall be nominated as the sole authority empowered to release, vary or modify the access way and covenant.

Reason: To ensure that Council's subdivision standard and the statutory requirements of the Conveyancing Act 1919 are met and the adequate access is provided to the proposed Lots.

20. Sydney Water Compliance Certification

The Applicant shall submit a Section 73 Compliance Certificate under the Sydney Water Act

1994 issued by Sydney Water Corporation. Application must be made through an authorised Water Servicing Co-ordinator. Please refer to the Building Developing and Plumbing section ofthe web site www.sydneywater.com.au http://www.sydneywater.com.au then refer to "WaterServicing Coordinator" under "Developing Your Land" or telephone 13 20 92 for assistance.

Following application a "Notice of Requirements" will advise of water and sewer infrastructure tobe built and fees to be paid. Please make early contact with the coordinator, since building of water/sewer infrastructure can be time consuming and may impact on other services and building, driveway or landscape design.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Subdivision Certificate.

Reason: To ensure compliance with the statutory requirements of Sydney Water.

21. Easement for Services

The Applicant shall create an easement for services (under the provisions of Section 88B of theConveyancing Act) on the final plan of subdivision, to accompany the Section 88B instrument to ensure all utility services are located within the appropriate easement(s).

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Subdivision Certificate.

Reason: Council's Subdivision standards and statutory requirements of the Conveyancing Act1919.

22. Release of Subdivision Certificate

The final plan of subdivision will not be issued by Council until the development has been completed in accordance with terms and conditions of the development consent.

Reason: Council's subdivision standards and the statutory requirements of the ConveyancingAct 1919.

LEC No: 2021/328295

23. Subdivision Certificate Application

The Applicant shall submit a Subdivision Certificate Application to Council, which is to include acompleted Subdivision Certificate form and checklist, a final plan of subdivision prepared in accordance with the requirements of the Conveyancing Act 1919, four copies of the final plan of subdivision and all relevant documents including electronic copies. This documentation is to besubmitted to Council prior to the issue of the Subdivision Certificate. All plans of survey are to show connections to at least two Survey Co-ordination Permanent Marks. The fee payable is tobe in accordance with Council's fees and charges.

Reason: Statutory requirement of the Conveyancing Act 1919.

24. Survey Plan – Construction Identification

The Applicant shall submit a declaration by a registered surveyor as evidence that all construction has been effected within the appropriate property, easement boundaries and rightsof carriageway. This shall be in the form of a copy of the final subdivision or easement plan, withthe distances from the boundaries to the edges of these structures endorsed in red thereon and signed by the surveyor. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Subdivision Certificate.

Reason: To ensure accurate location of buildings, access and services.

25. Title Encumbrances

The Applicant shall ensure all easements, rights of carriageway, positive covenants and restrictions as to user as detailed on the plans and required by the development consent are tobe created on the title naming Council as the sole authority empowered to release or modify.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Subdivision Certificate.

Reason: To ensure proper management of land.

28. Restriction as to User (Vehicular Access)

The Applicant shall submit a restriction as to user (under the provisions of Section 88B of the Conveyancing Act) to be incorporated on the title of proposed Lot 1. The restriction shall preclude that lot from utilising its frontage for vehicular traffic except for the section created as a Right of Carriageway. The wording of the restriction of use is to be prepared by a surveyor, with terms acceptable to Council.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Subdivision Certificate.

Reason: To ensure compliance with Council policy for vehicular access.
