**RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101**

The Collaroy beach sea wall should not be approved. The current design is terrible, within a few years I believe there will be no sand left at stuart street with its current design. It is far too tall and will block the sun on the beach for most of the afternoon. The DA is incomplete, it does not specify what type of wall is proposed for the area in front of south narrabeen SLSC. The works should cease immediately until the residents of Narrabeen and collaroy are briefed.
