

101 Florida Rn
palm beach
2108.

Regarding a Development
application DA2021/2416 with
northern beaches Council

Having viewed the site
155 pacific Road palm beach it
is puzzling for many residents
as to why it is necessary to
remove 10 trees. The council
have always been strict
about tree removal.

The residents below this
site are fearful that this
will impact & bring massive
problems for them.

There is an inclination
to go below house site &
the curious thing is the
views which clearly shows
central coast — Nth palm beach
p. beach clearly. Please
reconsider trees removal & the

residents below. It has
been very distressing for
many P. Beach residents
specially those of us who
live here full time

Yours truly
Dorothy & John Latta
