

## NOTICE OF DETERMINATION OF DEVELOPMENT APPLICATION

**Development Application No:** DA 2004/1446

### DEVELOPMENT APPLICATION DETAILS

**Applicant Name:** *Mr & Mrs A Warner*  
*C/- Bernard Gomm & Associates*

**Applicant Address:** *Suite 55 104 Bathurst Street Sydney NSW 2000*

**Land to be developed (Address):** Lot 1, DP 518626, 157 Warringah Road Beacon Hill

**Proposed Development:** *Additions to front & rear of existing dwelling & construction of elevated walkway*

### DETERMINATION

**Made on (Date):** 20 September 2006

**Determination:** **Deferred Commencement Consent 2004/1446DA**  
granted subject to conditions described below

**Consent to operate from (Date):** Once Council is satisfied as to those matters specified in the deferred commencement conditions, Council will nominate by way of written notice to the Applicant, the date from which the consent operates.

**Consent to lapse on (Date):** 3 years from activation of Consent

### Details of Conditions

*The conditions, which have been applied to the consent, aim to ensure that the Environmental Impacts of Development are minimised and the Health and Safety of the community is maintained in accordance with the relevant standards and the Building Code of Australia.*

### NOTE:

*If the works are to be certified by a Private Certifying Authority, then it is the certifier's responsibility to ensure all outstanding fees and bonds have been paid to Council prior to the issue of the Construction Certificate or as otherwise specified by Consent conditions.*

*Pursuant to Section 95(2) of the Environmental Planning and Assessment Act 1979, Council has varied the provisions of Section 95(1) and advise that the consent will lapse 3 years from the date upon which the consent operates.*

*Section 95A of the Environmental Planning and Assessment Act 1979, allows for an extension of 1 year to the period in which the consent will lapse, except for complying development. Such an application must be made in accordance with Clause 114 of the Environmental Planning and Assessment Regulation 2000.*

## GENERAL CONDITIONS

### DEFERRED COMMENCEMENT CONDITIONS

#### Stormwater Drainage (Deferred Commencement)

As the natural fall of the land is towards the rear of the site the stormwater drainage method will require the creation of an easement to allow discharge of stormwater through adjoining properties to an existing tail out drain within Council's reserve at the rear of the site. The easement is to be sufficient in size to incorporate the pipeline, headwall/dissipater device as shown in the design by GNG Design, drawing number 06.018-SMP Revision C dated 06.06.2006 and be created under Sections 88B and/or 88K of the Conveyancing Act prior to activation of this consent.

**Reason:** *To ensure adequate provision is made for stormwater drainage from the site in a proper manner that protects adjoining properties. [1]*

Evidence required to satisfy this condition must be submitted to Council within 12 months of the date of this consent, or the consent will lapse in accordance with Section 95 of the Environmental Planning and Assessment Regulation 2000.

### CONDITIONS THAT IDENTIFY APPROVED PLANS

#### 1. Approved Plans And Supporting Documentation

The development is to be carried out in compliance with the following plans and documentation listed below and endorsed with Council's stamp, except where amended by other conditions of consent:

Drawing Number	Dated
006 Issue B, 002 Issue C,	2/02/06
004 Issue C, 007 Issue A	6/02/06, 19/08/04

No construction works (including excavation) shall be undertaken prior to the release of the Construction Certificate.

**Note:** Further information on Construction Certificates can be obtained by contacting Council's Call Centre on 9942 2111, Council's website or at the Planning and Assessment Counter.

**Reason:** To ensure the work is carried out in accordance with the determination of Council and approved plans. [A1 (1)]

## **2. Plans on Site**

A copy of all stamped approved plans, specifications and documents (including the Construction Certificate if required for the work incorporating certification of conditions of approval) shall be kept on site at all times so as to be readily available for perusal by any officer of Council or the Principal Certifying Authority.

**Reason:** To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information and to ensure ongoing compliance. [A2]

## **3. Demolition of Extra Fabric**

Alterations to, and demolition of the existing building shall be limited to that shown on the approved plans (by way of notation). No approval is given or implied for removal and/or rebuilding of any portion of the existing building which is shown to be retained.

**Reason:** To ensure compliance with the approved development. [A3]

# **CONDITIONS THAT REQUIRE SUBSIDIARY MATTERS TO BE COMPLETED PRIOR TO ISSUE OF A CONSTRUCTION CERTIFICATE**

## **4. Kerb Security Bond**

A bond of \$825.00 shall be deposited with Council and inspection fees paid, prior to the issue of any construction certificate, against the potential for damage to Council's footpath and road reserve infrastructure during the construction process. (See Schedule)

**Reason:** To ensure appropriate security is in place for the protection or repair of Public Infrastructure. [C16]

## **5. Structural Adequacy of Existing Building**

A certificate prepared by an appropriately qualified and practising Structural Engineer, certifying the structural adequacy of the property and its ability to withstand the proposed additional, or altered structural loads shall be submitted with the Construction Certificate application.

**Reason:** To ensure the structural integrity of the building is maintained. [C50]

## **6. Asbestos & Hazardous Material**

A person taking down, demolishing or causing to be taken down or demolished

any building or part thereof shall, upon identifying or suspecting that asbestos is present in the building, immediately notify the Work Cover Authority. The Authority is the controlling body for the safe removal, handling and disposal of asbestos. The Authority supervises and monitors contractors engaged in asbestos removal. The requirements and standards imposed by the Authority, its consultants or contractors shall be complied with.

**Reason:** *To ensure the long term health of workers on site and occupants of the building is not put at risk unnecessarily. [C53 (2)]*

## 7. Roofing Materials - Reflectivity

The external finish to the roof shall have a medium to dark range in order to minimise solar reflections to neighbouring properties. The metal roof shall not be of light colours such as off white, cream, silver or light grey colours. Details being submitted with the Construction Certificate.

**Reason:** *To ensure that excessive glare or reflectivity nuisance from roofing materials does not occur as a result of the development. [C55]*

## 8. Security Bond Schedule

All fees and security bonds in accordance with the schedule below must be paid or in place prior to the issue of the required Construction Certificate:

<b>SECURITY BOND &amp; FEE SCHEDULE</b>	
157 Warringah Road, Beacon Hill (Property address)	
DEVELOPMENT APPLICATION NUMBER 2004/1446	
<b>SECURITY BONDS</b>	<b>AMOUNT (\$)</b>
Builders Road/Kerb Security Bond	\$825.00
<b>TOTAL BONDS</b>	<b>\$825.00</b>
<b>FEES</b>	
<b>Kerb Security Inspection Fee</b>	\$200.00
Long Service Levy	\$140.00
Council inspection fee should Council be the PCA	\$1650.00
<b>TOTAL FEES</b>	<b>\$1990.00</b>

**Reason:** *Compliance with the development consent. [C71]*

## 9. Privacy

Three copies of a detail demonstrating the erection of lattice screen along the rear boundary being of a height of 600mm above the top of the existing rear fence is to be submitted to and approved by the Accredited Certifier prior to the release of the construction certificate.

**Reason:** Maintain and enhance the privacy of the adjoining property.

## **10. Landscaping**

Three copies of a landscaping plan prepared by a suitably qualified person are to be submitted to and approved by the Accredited Certifier demonstrating the installation of screen planting in the areas indicated in rear on the approved site plan. The landscaping is to include locally occurring species capable of obtaining a minimum height of 3 metres.

**Reason:** Maintain and enhance the privacy of the adjoining properties.

## **CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT**

### **11. Silt & Sediment Control**

Provision shall be made throughout the period of demolition / Excavation & Construction to prevent transmission of soil to the public road and drainage system by vehicles leaving the site.

**Reason:** To avoid siltation to adjoining properties and waterways. **[D1]**

### **12. Construction Certificate**

A Construction Certificate is required to be approved and issued by either Council or an Accredited Certifier, prior to the commencement of any works on the site.

**Reason:** Legislative requirements. **[D3]**

### **13. Notice of Commencement**

At least 2 days prior to work commencing on site Council must be informed, by the submission of a Notice of Commencement in Accordance with section 81A of EP & A Act 1979 of the name and details of the Principal Certifying Authority and the date construction work is proposed to commence.

**Reason:** Legislative requirement for the naming of the PCA. **[D4]**

### **14. WorkCover**

Your attention is directed to the need to seek advice of your obligations from the WorkCover Authority prior to the commencement of any works on the site.

**Reason:** Statutory requirement. **[D5]**

## **15. Structural adequacy and Excavation work**

Excavation work is to ensure the stability of the soil material of adjoining properties, the protection of adjoining buildings, services, structures and / or public infrastructure from damage using underpinning, shoring, retaining walls and support where required.

All retaining walls are to be structurally adequate for the intended purpose, designed and certified by a Structural Engineer, except where site conditions permit the following:

- (a) maximum height of 900mm above or below ground level and at least 900mm from any property boundary, and
- (b) comply with AS3700, AS3600 and AS1170 and timber walls with AS1720 and AS1170.

Before excavation, the responsible person must notify their intention to the adjoining owner/s and shall at the same time furnish to such owner/s particulars of the work proposed to be carried out.

***Reason: Safety. [D9]***

## **16. Excavation/Building Works**

No excavation or building works shall be carried out until a Construction Certificate has been issued.

***Reason: To ensure compliance with statutory provisions. [D13]***

## **17. Inspection Fees**

Where Council is acting as the Principal Certifying Authority and where an inspection of building, civil or landscape work is required by these conditions, inspection fees and component certification fees must be paid to Council before Council will undertake any inspections. These fees may be paid at the time of submission of the required Notice of Commencement of works. This condition applies regardless of whether a Certification fee is also payable.

Note: The submission of a Notice of Commencement of works form to Council at least two (2) days prior commencing works is a statutory requirement.

***Reason: Statutory requirement and information. [D14]***

# **CONDITIONS THAT MUST BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK**

## **18. No Changes To Openings**

The windows / doors / fenestration shall not be enlarged or relocated on any elevation of the development. The use of rooms served by windows shall not be altered from that detailed on the approved plans.

***Reason:*** *To ensure compliance with the terms of this development consent. [E5]*

## **19. Progress Inspections (Class 1 and 10 Buildings)**

The Principal Certifying Authority (PCA) SHALL BE given a minimum of forty-eight (48) hours notice for mandatory inspection of the following,

- (a) At the commencement of the work, and after excavation for, and prior to the placement of any footings, and
- (b) Prior to pouring any in-situ reinforced concrete building element, and
- (c) Prior to covering of the framework for any floor, wall roof or other building element, and
- (d) Prior to covering over waterproofing in any wet areas, and
- (e) Prior to covering over stormwater drainage connections, absorption pits and other drainage works, and
- (f) After the building work has been completed and prior to any Occupation Certificate being issued in relation to the building.

The appointed Principal Certifying Authority MUST do the first inspection at the commencement of building work, and at completion of building work.

Notes:

- (1) The appointed Principal Certifying Authority has a discretion to determine additional inspections, or nominate other Accredited Certifiers to undertake inspections other than the first and last inspections, which are required to ensure compliance or otherwise with relevant codes and standards. In any event, the Principal Certifying Authority MUST be advised at all of the stages of construction identified above.
- (2) The PCA must advise the person with the benefit of the consent of the mandatory critical stage inspections referred to in the EP & A Regulations.
- (3) Where Warringah Council is acting as the Principal Certifying Authority for the project, notice is to be given by telephone to Council on 9942 2111 and requesting an relevant inspection. Failure to advise Council at the stages of construction identified above may result in fines being imposed.

- (4) Failure to advise the Principal Certifying Authority of the need for MANDATORY INSPECTIONS at the critical stages of construction detailed above may result in fines being imposed, works being required to be demolished, or delays experienced in obtaining final certification and occupation of the development in order to resolve issues.

**Reason:** Prescribed mandatory inspections under legislation. [E7]

## **20. Replacement of Principal Certifying Authority**

If the person exercising the benefits of a development consent changes or replaces the Principal Certifying Authority (PCA) during works on the site, the replacement PCA must notify Warringah Council within two (2) days of appointment. If the original PCA was Warringah Council, written approval from Council must be obtained for any change to the PCA role.

(Note: Special legislative provisions in the Environmental Planning and Assessment Act 1979 apply to the procedure for replacing a PCA)

**Reason:** Statutory requirement. [E11]

## **21. Replacement of Builder- (Class 1, 2, 3 and 4 buildings)**

If the builder is replaced while residential building work is being carried out, the Principal Certifying Authority (PCA) must give Warringah Council written notice of the name, licence number, and insurer of head contractor (or name and permit number of the owner-builder) within two (2) days of their appointment/replacement.

**Reason:** Statutory requirement. [E12]

## **22. Progress Survey - Minor Development**

In order to ensure compliance with approved plans, a Survey Certificate, to Australian Height Datum, shall be prepared by a Registered Surveyor as follows:

- at the completion of the first structural floor level indicating the level of that floor and the relationship of the building to the boundaries;
- at the completed height of the building, prior to the placement of concrete formwork, or the laying of roofing materials;
- at completion, the relationship of the building, and any projections thereto, to the boundaries.

Progress certifications in response to points (a) through (c) shall be provided to the Principal Certifying Authority at the time of carrying out relevant progress inspections. Under no circumstances will work be allowed to proceed should such survey

information be unavailable or reveal discrepancies between the approved plans and the proposed works.

***Reason:*** *To ensure compliance with approved plans. [E14]*

## **23. Noise and Vibration**

Noise emissions and vibration must be minimised where possible and work is to be carried out in accordance with Environment Protection Authority guidelines for noise emissions from construction/demolition works and must also comply with the provisions of the Protection of the Environment Operations Act 1997. This Condition must be complied with during demolition and building work.

***Reason:*** *To ensure residential amenity is maintained in the immediate vicinity. [E17]*

## **24. Dust Emission and Air Quality**

Materials must not be burnt on the site.

Vehicles entering and leaving the site with soil or fill material must be covered.

Dust suppression measures must be carried out to minimise wind-borne emissions in accordance with the NSW Department of Housing's 1998 guidelines - Managing Urban Stormwater: Soils and Construction. Odour suppression measures must be carried out so as to prevent nuisance occurring at adjoining properties. This Condition must be complied with during demolition and building work.

***Reason:*** *To ensure residential amenity is maintained in the immediate vicinity. [E18]*

## **25. Construction Access Over Public Reserve**

No building, demolition, excavation or material of any nature is to be placed on a public reserve and no vehicular or other access is to be gained over a public reserve.

A separate application for access is to be made only in circumstances where direct access from a street frontage is not reasonable.

***Reason:*** *To ensure the proper management of public land. [E20]*

## **26. Construction Hours**

Building construction shall be restricted to within the hours of 7.00 am to 5.00 pm Monday to Friday and on Saturday to within the hours of 8.00 am to 1.00 pm inclusive, with no work on Sundays and Public Holidays.

Demolition and excavation works shall be restricted to within the hours of 8.00 am to 5.00 pm Monday to Friday only. (Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like,

regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

The builder and excavator shall display, on-site, their twenty-four (24) hour contact telephone number, which is to be clearly visible and legible from any public place adjoining the site.

**Reason:** *To ensure that works do not interfere with reasonable amenity expectations of residents and the community. [E26]*

## **27. Installation and Maintenance of Sediment Control**

Techniques used for erosion and sediment control on building sites are to be adequately installed and maintained at all times and must be installed in accordance with Warringah Council guidelines. All techniques shall remain in proper operation until all development activities have been completed and the site fully stabilised. This Condition must be complied with during demolition and building work.

**Reason:** *To protect the environment from the effects of sedimentation and erosion from development sites. [E28]*

## **28. Prohibition on Use of Pavements**

Building materials shall not be placed on Council's footpaths, roadways, parks or grass verges and a suitable sign to this effect shall be erected adjacent to the street alignment.

**Reason:** *To ensure public safety and amenity on public land. [E35]*

## **29. Plant & Equipment Kept Within Site**

All plant and equipment used in the erection of the building, including concrete pumps, wagons, lifts, mobile cranes, etc, shall be situated within the boundaries of the site and so placed that all concrete slurry, water, debris and the like shall be discharged onto the building site, and is to be contained within the site boundaries. This condition shall be complied with during demolition and building work.

**Reason:** *To ensure public safety and amenity on public land. [E36]*

## **30. Maintenance of Road Reserve**

The public footways and roadways adjacent to the site shall be maintained at all times during the course of the work in a safe condition.

**Reason:** *Public Safety [E39]*

### 31. Building Code of Australia

All building work must be carried out in accordance with the provisions of the Building Code of Australia.

***Reason:*** Prescribed - Statutory. [F1]

### 32. Home Building Act

- (1) Building work that involves residential building work (within the meaning and exemptions provided in the Home Building Act) must not be carried out unless the Principal Certifying Authority for the development to which the work relates:
  - (a) in the case of work to be done by a licensee under that Act:
    - (i) has been informed in writing of the licensee's name and contractor licence number, and
    - (ii) is satisfied that the licensee has complied with the requirements of the Home Building Act, or
  - (b) in the case of work to be done by any other person:
    - (i) has been informed in writing of the person's name and owner-builder permit number, or
    - (ii) has been given a declaration, signed by the owner of the land, that states that the reasonable market cost of the labour and materials involved in the work is less than the amount prescribed for the purposes of the definition of owner-builder work in section 29 of that Act, and is given appropriate information and declarations under paragraphs (a) and (b) whenever arrangements for the doing of the work are changed in such a manner as to render out of date any information or declaration previously given under either of those paragraphs.

Note: The amount referred to in paragraph (b)(ii) is prescribed by regulations under the Home Building Act 1989. As at the date on which this Regulation was gazetted, that amount was \$3,000. As those regulations are amended from time to time, that amount may vary.

- (2) A certificate purporting to be issued by an approved insurer under Part 6 of the Home Building Act 1989 that states that a person is the holder of an insurance policy issued for the purposes of that Part is, for the purposes of this clause, sufficient evidence that the person has complied with the requirements of that Part.
- (3) If arrangements for doing residential building work are changed while the work is in progress so that the information submitted to Council is out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council), has given the

Council written notice of the updated information.

***Reason: Prescribed - Statutory. [F2]***

**Note:** Evidence of insurance required PRIOR to commencement of work.

**33. Lead**

For the protection of the health and safety of workers, adjoining property owners, the public and the environment, any person renovating or demolishing any building built before the 1970's should be aware that any surfaces may be coated with lead based paint. Lead dust is a hazardous substance. The requirements of the Environmental Protection Authority are to be followed in this regard.

***Reason: Safety. [F4]***

**34. Excavation / Backfilling**

- (1) All excavations and backfilling associated with the erection or demolition of a building must be executed safely and in accordance with appropriate professional standards.
- (2) All excavations associated with the erection or demolition of a building must be properly guarded and protected to prevent them from being dangerous to life or property.

***Reason: To ensure that work is undertaken in a professional and responsible manner and protect adjoining property and persons from potential damage. [F5]***

**35. Demolition**

Demolition work must be undertaken in accordance with the provisions of AS2601- Demolition of Structures.

***Reason: To ensure that work is undertaken in a professional and responsible manner and protect adjoining property and persons from potential damage. [F6]***

**36. Support for Neighbouring Buildings**

- (1) If an excavation associated with the erection or demolition of a building extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made:
  - (a) must preserve and protect the building from damage;
  - (b) if necessary, must underpin and support the adjoining building in an approved manner Subject to adjoining owner's consent; and

- (c) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
- (2) The owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.
- (3) In this clause, allotment of land includes a public road and any other public place.

***Reason:*** To ensure adjoining owner's property rights are protected and protect adjoining properties from potential damage. [F7]

### **37. Protection of Public Places**

- (1) If the work involved in the erection or demolition of a building:
  - (a) is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient; or
  - (b) building involves the enclosure of a public place,
    - a hoarding and site fencing must be erected between the work site and the public place.
- (2) If necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place.
- (3) The work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place.
- (4) Any such hoarding, fence or awning is to be removed when the work has been completed.
- (5) No access across public reserves or parks is permitted.

**Note:** Prior to the erection of any temporary fence or hoarding over property owned or managed by Council, written approval must be obtained. Any application needs to be accompanied by plans indicating the type of hoarding and its layout.

Fees are assessed and will form part of any approval given. These fees must be paid prior to the approval being given.

Approval for hoardings will generally only be given in association with approved building works, maintenance or to ensure protection of the public. An application form

for a Hoarding Permit can be downloaded from Council's website.

***Reason:*** *To ensure public safety and the proper management of public land. [F8]*

### **38. Site Sign**

- (1) A sign must be erected in a prominent position on any work site on which work involved in the erection or demolition of a building is being carried out:
  - (a) stating that unauthorised entry to the work site is prohibited;
  - (b) showing the name of the principal contractor (or person in charge of the work site), and a telephone number at which that person may be contacted at any time for business purposes and outside working hours; and
  - (c) showing the name, address and telephone number of the Principal Certifying Authority for the work.
- (2) Any such sign must be maintained while building work or demolition work is being carried out, but must be removed when the work has been completed.
- (3) This condition does not apply to building works being carried out inside an existing building.

***Reason:*** *Statutory requirement. [F9]*

### **39. Long Service Levy**

Payment of the Long Service Levy is required prior to the release of the Construction Certificate. This payment can be made at Council or to the Long Services Payments Corporation.

Advisory note: The rate of the Long Service Levy at the time of consent is 0.35% of the building construction works. At the time of consent, payment is not required where the value of the works is less than \$25,000. For works that are \$25,000 or over, a fee is required at the prescribed rate. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply and is based on the building construction works identified in the Construction Certificate.

***Reason:*** *Prescribed - Statutory. [F12]*

### **40. Retaining Walls & Drainage**

If the soil conditions require it:

- (a) retaining walls associated with the erection or demolition of a building or other approved methods of preventing movement of the soil must be provided, and

- (b) adequate provision must be made for drainage in accordance with the provisions of AS3500.3.2.

**Reason:** *To ensure appropriate measures are in place to address site conditions and provide appropriate site drainage. [F13]*

## CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO ISSUE OF OCCUPATION CERTIFICATE

### 41. Occupation Certificate Required

An Interim / Final Occupation Certificate shall be obtained in relation to the approved works prior to any use or occupation of those parts of the building.

**Reason:** *To ensure compliance with the provisions of the Environmental Planning and Assessment Act. [G1]*

### 42. Termite Control

- (1) Termite control measures being installed in accordance with AS 3660.1-2000 “Termite Management: New Building Work.”

**Reason:** *Termite control. [G6 (1)]*

- (2) A durable notice is to be permanently fixed to the building in a prominent location, such as the meter box or the like, indicating: The method of termite protection; date of installation; life expectancy of chemical barrier (if used); and installer’s or manufacturer’s recommendations for the scope and frequency of future inspections for termite activity.

**Reason:** *Termite control. [G6 (2)]*

### 43. On-Site Stormwater Detention Compliance Certification

The on-site detention system and associated drainage works are to be in accordance with the drainage plan submitted by GNG Design consultants (Drawing No 06.018-SMP Revision C dated 06/06/2006). On completion of works a works as executed drawing and certification of the works by the design engineer is to be submitted to the Principal Certifying Authority. Additionally a Compliance Certificate is to be issued by an Accredited Certifier in Civil Works registered with the Institute of Engineers Australia, stating that the works are in accordance with the above approved plans and Council’s “On-site detention technical specification”, the compliance certificate is to be submitted to the Principal Certifying Authority prior to occupation. Council can issue the Compliance Certificate if required subject to prescribed fee.

**Reason:** *To ensure appropriate provision is made for the disposal and management of stormwater generated by the development, and to ensure that public infrastructure in Council's care and control is not overloaded. [G27]*

#### **44. Creation of Positive Covenant and Restriction as to User**

Where any conditions of this Consent require the creation of a positive covenant and/or restriction as to user, the original completed request forms shall to be submitted to Warringah Council for authorisation. A certified copy of the documents shall be provided to Warringah Council after final approval and registration has been affected by the "NSW Land and Property Information Department" prior to occupation.

**Reason:** *To identify encumbrances on land. [G28]*

#### **45. Restrictions as to User**

Restrictions as to User shall be created over the on-site stormwater detention system, restricting any alteration to the levels and/or any construction on the land. The terms of such restriction is to be prepared to Warringah Council's standard requirements at the applicant's expense and endorsed by Council prior to lodgement with the "NSW Land and Property Information Department". Warringah Council shall be nominated as a party to release, vary or modify such restriction.

**Reason:** *To ensure no modification of the stormwater detention structure without Council's consent. [G29]*

#### **46. Positive Covenant (Onsite Detention Structure)**

Creation of a Positive Covenant of the Title of the land requiring the proprietor of the land to maintain the stormwater detention structures required by this Consent, in accordance with the standard requirements of Council. The Positive Covenant is to be prepared by the applicant using terms acceptable to, and which are available from Warringah Council. The positive covenant is to be endorsed by Council prior to its lodgement with the 'NSW Land and Property Information Department'.

**Reason:** *To ensure ongoing maintenance of the stormwater detention structure. [G32]*

#### **47. Privacy**

Prior to issuing the occupation certificate the landscaping is to be installed in accordance with the approved landscape plan and the lattice screen is to be erected on the rear boundary fence.

**Reason:** *Ensure the privacy of the adjoining properties is maintained and enhanced.*

#### **48. Smoke Alarms**

Prior to issuing the occupation certificate smoke alarms are to be installed in

accordance with Part 3.7.2 Smoke Alarms of the Housing Provision of the Building Code of Australia.

***Reason:*** *Ensure the safety of the occupants.*

## **ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES**

### **49. Single Occupancy**

- (a) Nothing in this consent shall authorise the use of the premises other than for a single occupancy.

***Reason:*** *To ensure compliance with the terms of this consent. [15]*

### **Right to Review by the Council**

You may request the Council to review the determination of the application under Section 82A of the Environmental Planning & Assessment Act 1979. Any request to review the application must be within 12 months after the date of determination shown on this notice.

*NOTE: A fee will apply for any request to review the determination.*

### **Right of Appeal**

If you are dissatisfied with this decision Section 97 of the Environmental Planning & Assessment Act 1979 may give you the right to appeal to the Land and Environment Court within 12 months after the date on which you receive this notice.

**Signed**                      on behalf of the consent authority
