RE: DA2019/0193 - 21 Wattle Avenue FAIRLIGHT NSW 2094

I am seriously unhappy with the revised submission as it does not address many of the concerns I raised with the original development application. This is a waste of everyone's time. The prior town planner Maxwell Duncan asked the prior plans to be withdrawn so that the applicants could consult with council on what is an appropriate development. Either this consultation did not happen or the applicants have chosen to ignore the discussions, because the new development application is not significantly different.

As there is no where to attach a document I will send an email with an updated submission document.

Regards
