**RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101**

Please, I beg of you, stop building anymore of this wall. Thousands of us turned out years ago to protest this, thousands of us. It now feels like, under cover of Covid, in it goes; a complete disregard of NBC constituents' wishes for our beautiful beach.

I don't feel that there has been adequate community consultation over this. I feel this way because, if there had been, it wouldn't be going in. This development completely contravenes the intent of Coastal Management Act, which was not written to facilitate the construction of a monolith, protecting a few properties, but to protect the beach, which belongs to all of us.

I also don't understand how construction can proceed when the solution has not yet been fully developed, i.e. access points.

We are the Northern BEACHES, not the Northern Concrete Society. Please, again, I beg of you, stop building this wall.
