## **WASTE MANAGEMENT PLAN**

On-going

143-145 McCarrs Creek Road, Church Point

The site must remain as clean as practical following a “Clean as you go” policy.

Skip Bins are not to be placed on the Council Strip and should at all times remain within the site.

Truck tyres are to be cleaned before entering public roads.

Sediment Control barriers are to be in place to ensure no surface runoff.

Sausage bags are to be placed on the highest side of road gutters and drains to minimize sediment entering roadways.

All waste receipts are to be retained
