- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

### Officer comments

The application seeks approval for alteration & additions to an existing dwelling, including construction of a free standing carport.

Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

#### **Biodiversity Conservation Act 2016 (BC Act) Pittwater Local Environmental Plan (PLEP)**

- 7.6 Biodiversity Protection

#### **Pittwater Development Control Plan (PDCP)**

- B4.6 Wildlife Corridors

On the basis that the proposal is located wholly within the existing footprint, and does not require the removal of prescribed trees or vegetation, nor is it likely to impact on soft open space or nearby biodiversity values, the Biodiversity Referral finds the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the

Responsible Officer.
