RE: DA2023/0995 - 54 Brighton Street FRESHWATER NSW 2096

To whom it may concern,

As a resident of Freshwater I wanted to provide my support of this development.

The development clearly has strong design principles, lots of off-street parking to remove cars from the street, energy efficiency and carbon offset and will provide much needed housing supply for the Northern Beaches.

I provide my complete support for the Council to approve this outstanding development.

Kind Regards

Crispin Swan
