RE: DA2023/1224 62 Myoora Road TERREY HILLS NSW 2084

I am not against the development itself but this new plan still shows trucks entering and exiting onto the already stressed Myoora Rd and IN A SCHOOL ZONE

It is not acceptable and NOT SAFE. The Mona Vale Rd side of the development is surely a safer option for trucks!

Please keep the young people of Terrey Hills safe and don't have the truck entry / exit in the Myoora Rd School Zone next to a bus stop used by children.

Myoora Rd is unsuitable for trucks. Residents are living with this reality every day due to the hospital development

Flower Power needs to move their truck driveway to Mona Vale Rd where our young local people and residents are not going to be as dangerously impacted.

I also cannot see on the plan a community space such as the current Garden Shed Mosaics space a vital resource currently doing much for the social connection and subsequent positive mental health of a community of locals.
