**RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100**

There is so little bushland left, particularly corridors, please do not keep having into what there is. I believe there are a pair of powerful owls that bed in this area; this reduces their habitat. We cannot make these areas any smaller, or there will be no wildlife. At least use an already cleared space if more industrial is needed. There are probably also our spaces for rent in and around this area; these should be investigated first.
