

## Natural Environment Referral Response - Coastal

Application Number:	Mod2020/0563
Date:	10/11/2020
Responsible Officer	Megan Surtees
Land to be developed (Address):	Lot 46 DP 13620 , 967 Barrenjoey Road PALM BEACH NSW 2108

### Reasons for referral

This application seeks consent for land located within the Coastal Zone.

And as such, Council's Natural Environment Unit officers are required to consider the likely impacts on drainage regimes.

### Officer comments

The application has been assessed in consideration of the Coastal Management Act 2016, State Environmental Planning Policy (Coastal Management) 2018 and has also been assessed against requirements of the Pittwater LEP 2014 and Pittwater 21 DCP.

#### Coastal Management Act 2016

The subject site has been identified as being within the coastal zone and therefore *Coastal Management Act 2016* is applicable to the proposed development.

The proposed development is in line with the objects, as set out under Clause 3 of the *Coastal Management Act 2016*.

#### State Environmental Planning Policy (Coastal Management) 2018

The subject land has been included on the 'Proximity to Littoral Rainforest Area', 'Coastal Environment Area' and 'Coastal Use Area' maps under the State Environmental Planning Policy (Coastal Management) 2018 (CM SEPP). Hence, Clauses 11, 13, 14 and 15 of the CM SEPP apply for this DA.

Comment:

On internal assessment, the DA satisfies requirements under clauses 13, 14 and 15 of the CM SEPP. Requirements under Clause 11 will be assessed by other section of the Council.

#### Pittwater LEP 2014 and Pittwater 21 DCP

#### Estuarine Hazard

The subject property has also been identified as affected by estuarine wave action and tidal inundation on Council's Estuarine Hazard Mapping. As such, the Estuarine Risk Management Policy for Development in Pittwater (Appendix 7, Pittwater 21 DCP) and the relevant B3.7 Estuarine Hazard

Controls will apply to any proposed development of the site.

On internal assessment and , the floor levels for the proposed modifications are above the applicable EPL of for the site.

The proposed development is therefore able to satisfy the relevant estuarine risk management requirements of P21 DCP.

### **Development on Foreshore Area**

A section of the subject property is within the foreshore building line. Part 7, Clause 7.8 –Limited development on foreshore area of the Pittwater LEP 2014 applies for any development within the foreshore area.

The DA proposes no works on the foreshores area and hence, the DA does not require to satisfy the objectives and requirements of Part 7, Clause 7.8 of the Pittwater LEP 2014.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

### **Recommended Natural Environment Conditions:**

#### **CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT**

##### **Installation and Maintenance of Sediment and Erosion Control**

Sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004). Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To protect the surrounding environment from the effects of sedimentation and erosion from the site
