RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

This development should not go ahead as planned as the streets surrounding the site cannot cope with more traffic [possibly 100 more vehicles]. The heightened density of residents also will increase pressure on that already highly cluttered vicinity [Glenrose, Gym, Library, theatre, service station etc]. This site should have been designated a park to enhance the natural landscape and continue the green canopy which is much desired in this area.
