Re: DA 2019/0808
Lot 2DP 325220
16 Addison Road Manly – Construction of swimming pool and associated works

Dear Kye,

Thank you for your assistance with reviewing this development application for the swimming pool and associated works. We have no objection to the proposed development, however would request that a dilapidation inspection and report of our property is completed prior to the commencement of any demolition works of the existing pool. We request that particular focus is given to the areas at the water level and the shared driveway which will be used during construction of the new pool.

Kind regards

Margaret Lavers
