To whom it may concern:

I just wanted to email to express my support for Hugos Development Application. Absolutely LOVE dining at Hugos Manly - would easily be my favourite restaurant in town. Living with two young children, it's a family friendly location for my family to visit - we especially love sitting outside, in the era of Covid-19 and ensuring health safety!

As a local, I believe that not only will increasing their seating increase my likelihood to get a reservation (who could argue with that), but it will also have a significant impact in supporting local employment, business and support the hospitality industry in the post-Covid environment.

Warm regards,

Emily Takatori
