Keep the organic markets on the beaches,  
I am a regular I have been going to them for over 20 years, love the produce & products great family atmospher. It is great to meet up with family & friends for a drink & something to eat while completing our weekly shopping. Produce is fresh with a great variety well priced. Stall holders deserve an opportunity to continue to trade, they are all hard working people trying to make a living. They are all struggling now as the current venue is so run down.  
Thanks
