RE: DA2019/1475 - 22 Victoria Parade MANLY NSW 2095

We recently built and stuck to strict heritage guidelines.
The beautiful facade and iconic design is not being restored.
It's too high and does not suit the style of Manly.
Unsure of why this is not heritage.
The higher needs to come down drastically.
I understand it needs repairing but not total demolition and not to be bigger than the original
