RE: DA2024/0279 - 18 Arnhem Road ALLAMBIE HEIGHTS NSW 2100

This submission is raised for Application No. DA2024/0279, Address: 18 Arnhem Road Allambie Heights. As direct neighbour, in addition to the natural light through our stairwell glasses and bathroom window will be blocked by the extension of the house (adding first floor), the major concern is the privacy of using our upstairs bathroom. According to North Elevation of the master plan, there is a window (W3) could see direct into our upstairs bathroom (main bathroom we use). Although our window is frosted, body shapes could be seen at the night when lights are on, and we need to open window to get steam out after showers. It's very uncomfortable to have a window in very close distance that could see direct into our bathroom.
