RE: DA2021/1164 - 521 Barrenjoey Road BILGOLA BEACH NSW 2107

Dear Sir/Madame,

I would like to oppose this development for a number reasons:

Loss of habitat for the insects, animals and birds, shrubs. Loss of immature native Australian gums - Angophoras. These trees are rare and precious. Please protect these trees and stop them from being destroyed. They keep our air clean and provide a home for many threatened native birds and animals to live in.

Thank you
