RE: DA2025/0155 - 1 / 63 - 67 The Corso MANLY NSW 2095

While we support the DA application in principle and are looking forward to Get Sashimi coming to Manly, as a representative of a property owner with several properties on The Corso, we feel that the sales counter is too close to the property boundary on The Corso, which more than likely will result in queues stretching out on the Corso. This will create issues with the free flow of foot traffic, and possible safety issues for those people waiting to be served, given the increasing usage of e-bikes on The Corso. Therefore, we object IF the counter is NOT pushed further back into the retail space of the premises.
