Evergreen Energy Consultants				
Email address: enquiries@evergreenec.com.au			Ph: 1300 584 010	
Important Note for Development Applicants:				
The following specification was used to achieve the thermal performance values indicated on the Assessor Certificate. If they vary from drawings or other specifications this Specification shall take precedence. If only one specification option is detailed for a building element, that specification must apply to all instances of that element for the whole project. If alternate specifications are detailed, the location and extent of the alternate specification must be detailed below and / or clearly indicated on referenced documentation.				
Once the development is approved by the consent authority, these specifications will become a condition of consent and must be included in the built works. If you do not want to include these requirements, the proposed construction varies to those detailed or need further information, please contact Evergreen Energy Consultants.				
This assessment has assumed that the BCA provisions for building sealing will be complied with at construction.
