### Part 1: Installer - Contact Details

Name / Company Name		
Address		
Suburb	Postcode	
Business Phone	Mobile	
Home Phone	Fax	

## Part 2: Plumber - Contact Details

Name / Company Name		
Business Phone	Mobile	
Home Phone	Fax	

## Part 3: System Type (please tick appropriate box)

Type of on-site wastewater management system		Type of on-site wastewater disposal system				
Aerated wastewater treatment system One Off Approval		Absorption trench				
Septic tank		Spray irrigation				
Greywater treatment system		Sub-surface irrigation				
Wet/dry composting toilet		Mound system				
Pump-out to sewer		Pump-out to truck				
Other please specify						

## Part 4: Further Information

Type of premises			Fittings to be connected				
Dwelling			w.c				
Multi-residential			Bath				
Commercial			Laundry				
Industrial			Kitchen Sink				
Approximate Number of persons residing in dwelling			Number of bedrooms in dwelling				
Tank (s) capacity in litres			Water Source	Town		Tank	
Other please specify							

#### Part 5: Owner's Declaration

I/We undertake to comply with the Local Government Act 1993 and Regulations and amendments, and the Protection of the Environment Operation Act 1997.

I/We have read the explanatory notes for completion of this application contained on the form and understand that if all the required details are not provided, the application may be subject to delay or be rejected as incomplete. I also understand that Council may request more information or clarification to complete this application.

I/We consent to Northern Beaches Council displaying this application and supporting documents for the purpose of obtaining when necessary any public comment.

I/We consent to Council officers entering the above property for the purpose of carrying out inspections on this application.

Owner 1 Signature	Date	
Owner 2 Signature	Date	

### Part 6: Checklist

REQUIRED			
SYSTEM DETAILS (1 COPY)	YES	NO	WHY
Submit full manufacturer's details and plans;			
Submit scaled plans of the tank/system, including vertical section;			
Ensure the system is accredited by NSW Health			
SITE ASSESSMENT	<u> </u>		
The application must include a site assessment undertaken by a suitably qualified person. This assessment must contain details of the topography, soil composition, texture and vegetation of any effluent application areas related to the system.			
BLOCK/SITE PLANS (2 COPIES)			
Drawn to scale on A3 paper			
Details of the topography (such as spot levels or contour lines)			
The buffer distances around irrigation areas and tanks.			
The position of all fittings, plumbing and drainage lines.			
The position of the system and/or disposal area.			
Any environmentally sensitive areas or water courses located within 100 metres of the sewage management facility.			
Freshwater Bores			
<ul> <li>When installing an aerated wastewater treatment system, full details to be shown of the irrigation system and the dimensions and boundaries of the area to be irrigated.</li> </ul>			
• Dams			
Any existing on-site sewage management system, including disposal area (if applicable).			
OPERATION AND MAINTENANCE (1 COPY)		•	
The application must be accompanied by details of:			
1. The operation and maintenance requirements for the proposed facility			
The proposed operation, maintenance and servicing arrangements intended to meet those requirements			
3. An action plan to be taken in the event of a breakdown in, or other interference with, its operation.			
		1	

Note: "Difficult" sites (or sites with limitations) for effluent disposal may require a more detailed disposal system designed by a suitably qualified wastewater professional.
