Submission to council for development of 27 Waine Street freshwater.

I have been a resident of 56 waine Street for over 20 years. Over this time I have noticed the increased number of vehicles that need to park on the street.

The issue is that, if the development of 27 Waine Street goes ahead, the parking on the dangerous hairpin corner will become a nightmare for all residents of the street.

My parents also live in 56 Waine Street and have done for 35 years. This is another issue that has come up for them to deal with. As with all of the residents of Waine Street, I reject the development of 27 Waine Street due to the safety concerns for all who are living in the street.

We would appreciate if this development was rejected and appreciate your understanding of this issue.

Please rethink the development. The residents of Waine Street would like to live as safely as possible.

Kind regards
Kristy Reed

56 Waine Street
Freshwater.
