RE: Mod2014/0117 - 5 Lawrence Street FRESHWATER NSW 2096

The site is too narrow for 16 units. Some will be exposed to the Electric Sub Station

Increased traffic in the area. The village has enough traffic issues now

Parking in the area is already at capacity especially when church services are on

This DA would double the number of properties in the street.

I don't want Freshwater to end up in the mess Dee Why is in now due to over development and lack of planning.

Regards

Amanda Kivovitch
