RE: DA2020/0714 - 888 Pittwater Road DEE WHY NSW 2099

the position of the suggested car wash may impact the residents driving in and out of the carpark together with creating a back up of cars in blind spots. Also, as its there the security gate entrance for residents, this could pose a risk, a security risk by having people hanging around the car wash and making their way down the security area of the B3.
