RE: DA2018/1481 - 1 / 0 Veterans Parade NARRABEEN NSW 2101

We are very concerned about long term effects on our grandchildren from radiation> How can RSL Lifecare for a few elderly residents have precedence over a suburb of young families, cannot feel guilty over a 40ft Tower which will emanate emissions with possible effects on children ,especially as they should have checked whether reception was available before they purchased!!Our family live in Lantana Avenue opposite RSL Life Care and go to Wheeler Heights primary school. This is deplorable in a pristine area which ratepayers have paid a lot of money for the Narrabeen

Walkway also the wildlife. We strongly oppose this and recommend an alternative solution be sought!! DO NOT PLAY WITH CHILDRENS LIVES.
