**RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100**

This development will directly join a residential area which simply doesn't suit the character of the suburb. There are already issues with noise from industrial spots coming up into Allambie Heights and as a resident who lives on this street, while some noise is expected here it would be horrible to see the street become impacted by further and closer industrial presence.

This destruction of the natural habitat will also negatively impact many native animals (some protected I believe). Essentially this will cut off this important bush corridor. We would hate to see this destroyed.

Thanks for your consideration. Surely there must be other spaces to use that makes more sense for all.
