**RE: DA2021/1338 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I am now quite elderly and one of my great pleasures is to walk around Bayview Golf course. It is safe and I am not bothered by traffic. However every time it rains my passage is blocked by heavy water on the ground adjacent to Cabbage tree road. I was delighted to hear that drainage was to be installed along this area and am now surprised that there may be a delay. I baffles me how such drainage could possibly interfere with anyone so I cannot understand an objection. One thing I would suggest is the drain running along side the road be cleaned up as it has a very unhealthy odour.
