**RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106**

As a resident I regularly frequent Robertson Road which has progressively developed into a meeting dining and cafe location, because it is quiet and gets the sun particularly in winter and a small number of cars move relatively slowly up the road. Robertson Road should be further encouraged to develop as a community hub as Barrenjoey Road is a multi laned busy and noisy transit facility and not conducive to a community gathering. Apart from the beach Robertson road has developed into a vital community hub which should be further developed through restricted traffic movement
