**Subject:** Harbord Bowling Club Markets

**NOISE**

Residents are subjected to noise all week and weekends, day and night from organised sport activities e.g. hooters, gongs, sirens, generators, amplified announcements etc. Noise from market spruikers, music, entertainers, amplified sounds etc on Sundays will create more stress for residents. It is totally unreasonable.

**TRAFFIC**

The volume of traffic created by organised sport activities makes our local streets chaotic, congested and unsafe. More traffic on Sundays means greater loss of neighbourhood peace, harmony and sanity. This is totally unreasonable.

**NEED**

Nearby in Manly, every Saturday and Sunday, market stalls fill the Corso, Sydney Road and often the beachfront as well so there is no lack of market outlets. There is totally no requirement for more market outlets.
