### BUSHFIRE PRONE LAND

The site is classified as bush fire prone land. Section 4.14 of the Environmental Planning and Assessment Act 1979 requires Council to be satisfied that the development conforms to the specifications and requirements of the version (as prescribed by the regulations) of the document entitled Planning for Bush Fire Protection.

### NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the relevant Development Control Plan.

As a result of the public exhibition process council is in receipt of 2 submission/s from:

Name:	Address:
Mr Craig Lee Bailey	18 Gilbert Place FRENCHS FOREST NSW 2086
Mrs Naomi Ruth Bailey	18 Gilbert Place FRENCHS FOREST NSW 2086

The following issues were raised in the submissions and each have been addressed below:

- Natural sunlight and overshadowing  
Concern is held for the impact of the proposed building on the backyard and living spaces/areas. Query is also made regarding the north arrow and what the dark grey shadow relates to.
- Privacy  
Request for treatment of 2nd storey windows to reduce privacy impact.
- Boundary Setbacks  
Concern for potential impact caused by setbacks and clarification requested in regards to Council regulations

The matters raised within the submissions are addressed as follows:

- Natural sunlight and overshadowing  
Concern is held for the impact of the proposed building on the backyard and living spaces/areas. Query is also made regarding the north arrow and what the dark grey shadow relates to.

Comment:

The proposal is consistent with the requirements under the Warringah DCP for Access to sunlight. In particular the proposal complies with the following requirement:

"At least 50% of the required area of private open space of each dwelling and at least 50% of the required area of private open space of adjoining dwellings are to receive a minimum of 3 hours of sunlight between 9am and 3pm on June 21."

The proposed north arrow (true north) is consistent with the survey and the dark grey annotation on the shadow diagrams represents overlapping on the shadowing.

- Privacy

Request for treatment of 2nd storey windows to reduce privacy impact.

Comment:

A condition has been provided to require a ensuite window (toward the rear) to be either obscured or to be a highlight window. The window toward the front of the dwelling at the south elevation is well separated from neighbouring private open space, complies with the controls for building envelope and setback, and would therefore not result in any unreasonable privacy impact.

- Boundary Setbacks

Concern for potential impact caused by setbacks and clarification requested in regards to Council regulations

Comment:

The proposal complies with the numerical requirements for setbacks and rear envelope. This is demonstrated in the table for built form controls in this report.

## REFERRALS
