**RE: DA2021/1762 - 12 Boyer Road BEACON HILL NSW 2100**

1. Landscape plan  
Existing trees to be retained.

Removal of the retained tree.

On 10 September 2021, one large tree close to the rear boundary was removed. Date and time reference photos are available if required.

This tree gave our backyard and adjoining properties plenty of shade in the summer months.

2. Construction management plan - sheet 2.1  
Relocation of the portable toilet.

The location of the toilet indicated it's within proximity to the corner of our property (west side window), close to the street.

Indeed, this toilet can be placed somewhere else during construction, as this is our master bedroom. Additionally, it is an awning window that we open for ventilation. There is no fencing between the two properties to hide this portable toilet, plus the odours would be noticeable.
