Subject: submission re 120-122 Mona Vale Rd rezoning

Attention the General Manager,
Dear Mark,

I wish to object to this rezoning application as this land is a critical wildlife corridor between Ingleside Chase Reserve and Katandra Bushland Sanctuary. It is identified as a fauna crossing hot spot in a report prepared for the RMS in 2011 by SMEC.

As co- author of a paper published by the Royal Zoological Society ' Too close to Nature" and "The Narrabeen Lagoon Catchment- Past, Present and Future"

I am very aware of the need to preserve core bushland areas with connecting wildlife corridors to preserve our extraordinary ecological treasure for future generations.

I am sure a better solution can be found and core values can be upheld including the preservation of connectivity between Ku- ring Gai and Garigal National Parks, Warriewood Wetlands, the Ingleside Escarpment and Katandra Bush Sanctuary.

Regards

Conny Harris
