As a young family, we are HIGHLY opposed to having McDonalds restaurant in this location specifically, and in this area in general.

I am opposed to this because of many reasons including the very poor quality food offering that is made by this chain, giving no nutritional value to our community. Visually I don't want my children exposed to the marketing and imagery associated with this brand either .

Further to this the traffic, congestion, and additionally the known "drive through and then park to eat" culture would end up being in our area which currently struggles under the need for street parking for the residents.

The carelessness of McDonalds customers and impact in our environment, locally, and globally also concerns me, as there is precedent of how much additional rubbish is left behind by these businesses and their customers.
