**RE: DA2019/0323 - 54 Curl Curl Parade CURL CURL NSW 2096**

I note that the Western boundary wall has been constructed in preparation for the works. The impact of this wall being built is that the sound from the backyard of 54 Curl Curl Parade is echoed up the hill to our place. Quiet conversations on the back deck of 54 Curl Curl Parade can be heard from our backyard - previously not the case prior to the wall being built. No doubt the sound from the pool will be greater than quiet conversations. My polite request is that the boundary wall echo be buffered by the planting of trees/shrubs along that wall - they will absorb the sound rather than reflect up the hill. And the aesthetics of shrubs that we will see from our deck will be more pleasant than the current view we have of the block wall. Thanks
