RE: DA2021/2173 - 394 Barrenjoey Road NEWPORT NSW 2106

The fact that this submission has been declined multiple times is bordering on ridiculous. This is an emergency service that is doing its best to try and save lives. The volunteers at Newport SLSC have given up their time and weekends to try and ensure the safety of the public at Newport Beach and the fact they are still trying to operate out of a building that is falling apart around them is outstanding. While all these submissions have been rejected there has not been an alternative solution offered. The best place for the clubhouse is where it is, it gives full view of both ends of the beach even while the surf is large. It's the perfect vantage point to see when watching from the beach becomes too difficult. There have been several rescues that have been spotted from the clubhouse where if we had not been up there the person would have drowned. These families have been grateful and it's a shame that the council and those fueling the issues cannot see the benefit these volunteers have made to the public of Newport.
