RE: 55 WOOLGOOLGA STREET, NORTH BALGOWLAH NSW
EXCAVATION INSPECTION (2ND MARCH 2022)
GEE Letter Reference: G21059NB-L01F

Dear David,

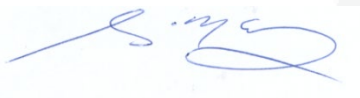

Geo-Environmental Engineering Pty Ltd (GEE) has previously completed the following geotechnical investigation at 55 Woolgoolga Street, North Balgowlah NSW (herein referred to as the site) and the investigation related to a proposed residential development:

- ◇ Geo-Environmental Engineering Pty Ltd, 2021: Geotechnical Investigation Report 55 Woolgoolga Street, North Balgowlah NSW. Prepared for Mr Rory Prior, Report ID G21059NB-R01F dated 9th August 2021.

Our report was based on a set of architectural plans prepared by Ursino Architects and dated the 9th August 2021, however, the plans have been altered and Council has requested that GEE review the new plans and if necessary make changes to our geotechnical report. Based on our review of the updated architectural plans that are dated the 1st February 2022, GEE considers that our report is still relevant for the new design.

If you have any questions about the content of this letter, please do not hesitate to contact the undersigned.

Yours sincerely

Stephen McCormack (B. E. Civil – Hons, MIEAust, CPEng, NER)
