RE: DA2019/0278 - 1 / 1 Moore Road FRESHWATER NSW 2096

I feel that the owner of the property needs to be reminded that Freshwater is a community and for Council to approve an application, that allows a business of this nature would ultimately be killing the complex. They are designed for industrial areas. It won't last, so let's not put it in to start with. It is already struggling with the development and an another owner that lets shops sit vacant. We need more food outlets or a medical centre that caters to all people.
