Officer comments

| HERITAGE COMMENTS | | |
|---|----|-----------------------|
| Discussion of reason for referral | | |
| <p>The proposal has been referred to Heritage as the site is opposite a local heritage item, being Item I26 - House - 78 Wanganella Street, Balgowlah, listed in Schedule 5 of Manly LEP 2013.</p> | | |
| Details of heritage items affected | | |
| <p>Details of the heritage item, as contained within the Northern Beaches Heritage Inventory are as follows:</p> <p>Item I26 - House <u>Statement of significance:</u> A good example of California Bungalow style timber residential building. <u>Physical description:</u> A one storey weather board California Bungalow. Significant elements include shallow pitched iron roof (possibly original roofing); elaborate timber valence to entry porch; massive stone piers to entry porch decorated with plaster quoins and stucco; diamond pattern lead light to windows of front bay; flattened diamond pattern in flashing above bay roof.</p> | | |

| Consideration of Application | | |
| <p>The proposal seeks consent for alterations and additions to an existing single storey semi-detached dwelling including a first floor addition to one semi known as 79B Wanganella Street, Balgowlah. The existing building on the site is a single storey cottage which dates back to circa 1928 and is in the appearance of one single dwelling. The property is not a heritage item, but is within the vicinity of a heritage listed item, located opposite the subject site. The existing building has retained its original mass and built form and some internal features.</p> <p>The proposal involves the removal of the some internal walls, ceiling, fire place, chimney and the existing laundry. Heritage recommend; shifting the first floor addition towards the western direction, so that the front plane of the existing hip roof is completely retained and the first floor addition does</p> | | |

not come forward of the existing front roof plane. It is understood that a portion of the existing roof is retained along the side boundary (northern elevation) and this is supported by Heritage, however, considerations should also be given to the retention of the existing chimney. This could be achieved by providing a recess to the section of the first floor walls where the existing chimney is. A reduction to the first floor height is also recommended to provide a smooth transition between the existing roof and the new roof. The colour schedule needs to be amended as black and dark grey are recommended to be avoided in the context of the area.

Therefore, Heritage require amendments to the proposal to maintain the existing street frontage - that the first floor addition is in keeping with the adjacent semi and to not adversely impact the heritage item and the existing streetscape.

Consider against the provisions of CL5.10 of Manly LEP 2013.

Is a Conservation Management Plan (CMP) Required? No

Has a CMP been provided? No

Is a Heritage Impact Statement required? No

Has a Heritage Impact Statement been provided? No

Further Comments

The proposal is therefore supported.
