RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

I object to the Optus Tower that is planned for the fields at the end of the street. I live on Spring Rd, where the proposed tower is planned.

This tower will be 300 m from the local public school which is against the Federal recommendation of 500m from a school. This is totally unnecessary as phone reception is strong in this area as there are towers in Brookvale and Headland Rd, I am an Optus customer and have never had reception issues.

These fields are used by thousands of people every week and we do not want to be exposed to electromagnetic radiation, it is not needed. The tower is not needed and should not be approved. A similar proposal was rejected a few years ago and the situation has not changed.

Please do not approve this.
