RE: DA2020/0543 - 50 Lawrence Street FRESHWATER NSW 2096

To whom it may concern,
I am concerned firstly about the height of this development in our small Village. At the top of the area this would overpower the look and feel of the area. Secondly I am concerned that there is already a number of developments in the village and the area is already struggling to cope with the volume of traffic. There is already a large number of empty shops within the village I doubt that this will help alleviate this. I have great concern about the disruption to traffic during construction. The streets and nearby intersection are extremely busy and cater for most residents entering the area and nearby suburbs. Other nearby construction has been a burden on the area and this one will also cause major disruption.
I hope you will consider my thoughts and that of a great many in our community
Kind regards
Jacinta Herd
