Officer comments

Council's Natural Environment - Biodiversity section raises no objections to the proposed development. This application was assessed against State Environmental Planning Policy (Coastal Management) 2018 [Clause 13](#) Development on land within the coastal environment area and P21 DCP B4.5 Landscape and flora and fauna enhancement category 3 land.

The proposal is for landscaping works in the front garden, earthworks and minor retaining walls. The proposal is designed, sited and will be managed to avoid an adverse impact and is consistent with biodiversity controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
