RE: DA2019/0845 - 68 A Queenscliff Road QUEENSCLIFF NSW 2096

This development is an ugly illegal oversized monstrosity and a classic case of the developer maximising their return at the expense of the community.

This eyesore will cause serious problems for an area already incapable of coping with the current demands on infrastructure.

Who will pay to address all the serious infrastructure problems this development creates? Not the developer who will dump and run with pockets full of money.

This development is a disgrace as it:

1. Substantially breaches Council height restrictions;
 2. Breaches Council set back provisions on boundary lines;
 3. Extends building lines on a site that already breaches Council open space requirements; and
 4. Does not meet Council requirements for 2.28 car spaces per unit in a neighbourhood where it is well documented there have been serious ongoing parking problems for over 15 years!
- Furthermore, with 5 dwellings and 2 retails sites there will be a significant increase in the requirements for visitor parking. This is on streets that already have a catastrophic resident parking problem.

At the very least any development like this should have ungated parking for a minimum of 3 visitor parking spaces. Local residents should not have to experience increased hardships while the developer gets away with trashing the neighbourhood.

This development, because it is so excessive, creates an eyesore and a massive negative precedent for our community in Queenscliff.

Please don't allow this illegal, unwarranted, excessive eyesore to foul our neighbourhood.
