INTERESTS RELATING TO THE SUBJECT SITE:
The Certificate of Title for LRP 625 DP 729302 ordered on 18.12.2016 identified the following interests prior to the original MB Instrument or Dealing creating the interest for specific terms - we recommend this be undertaken prior to design or construction:
• Land excludes minerals see Memorandum 57000004 (not investigated)

INTERESTS RELATING TO THE SUBJECT SITE:
The Certificate of Title for LRP 625 DP 729302 ordered on 18.12.2016 identified the following interests prior to the original MB Instrument or Dealing creating the interest for specific terms - we recommend this be undertaken prior to design or construction:
• Land excludes minerals see Memorandum 57000004 (not investigated)

- NOTES**
• Do not scale from this plan.
• Plan coordinates have been determined from ground (real) distances and are related to an MGA grid point of origin. A scale factor must be applied to convert plan coordinates to true MGA grid coordinates.
• The purpose of this Detail Survey plan is to show detail and levels for planning and design. Do not use the information shown for any other purpose.
• Contours are an indication of the topography and should only be used for planning purposes. Spot levels only should be used for detailed design.
• A preliminary location of subject site boundaries has been made. The boundary dimensions and areas shown are approximate only due to the age and nature of the Decoded Plan defining the boundaries of the site and if critical should be confirmed by a Plan of Reformation. We strongly recommend this be undertaken prior to the construction of any significant structure on or adjacent to a boundary.
• The relationship of built form and natural features to boundaries is diagrammatic and if critical should be confirmed by a Boundary Survey.
• No services search has been undertaken. Only those services visible at the time of survey have been located. It is recommended to contact Dial Before You Dig and the relevant service authority prior to commencement of any work.
• True information and height/location is approximate and if critical may require further investigation.
• This drawing and the information it contains is copyright and remains the property of Surveyplus Pty Ltd. It must not be copied, used or altered without the express authority of Surveyplus.
• These notes and interests noted in the Certificate of Title form an integral part of this plan and any other plan that relies on the information shown herein.
